

BUILD YOUR OWN SALAD GLOVE™*

Materials you'll need:

- 1 needle
- 1 spool of thread
- 1 stapler
- 1 staple
- 1 cutting implement
- 1 one-gallon freezer bag
- 1 salad
- 1 hour
- 1 piece of paper
- 1 human soul

Label

Fold along dotted line.

A

- STEP 1** - With a knife that is unnecessarily sharp, cut your favorite brand of one-gallon freezer bag using the above diagram as a guide for the proper shape.
- STEP 2** - Sew both pieces of plastic wrap together along the outer edge. Take care to leave an opening at the bottom (Point A). This is where your hand will enter the glove.
- STEP 3** - Staple a stupid piece of paper to the end. Preferably, the paper would be emblazoned with the Salad Glove™ name.
- STEP 4** - Fistfuck your hunger and prepare for litigation regarding your bootleg product.

*Do not try this at home. Requires adult supervision. Warning: choking hazard.
